

Regional Rating System 2020

HANOI UNIVERSITY OF MINING AND GEOLOGY

GREETINGS!

The Regional Rating System - UNIVERSITY PERFORMANCE METRICS - UPM is extremely pleased to inform you the benchmarking results of your institution. The results will be announced at the Conference on the University Performance Metrics co-organized by Vietnam National University, Hanoi and AUN Secretariat on 18th August 2020 and published on UPM website (upm.vn) as well.

This assessment report presents the detailed rating results and the data that has been used as the basis for the rating score. Hopefully, this would provide you with useful information for your institution's self-benchmarking and strategic governance. In addition, you can use it for your media communication.

The University Performance Metrics includes a set of 54 indicators across 8 categories following two distinctive orientations: research and application. Evaluation results are presented in the form of an overall score for the whole institution and a score for each category and each indicator, corresponding to a number of Stars ranging from 1 – 5.

OVERALL RATING

The overall rating card features the UPM logo at the top, followed by the university's name in Vietnamese and English. Below the name are four gold stars, the year 2020, and the category 'RESEARCH ORIENTED UNIVERSITY'. A small red text at the bottom provides the announcement details.

BASIC FACTS AND FIGURES

Total student size: 14456	
Undergraduate students:	13427
Master's students: 904	
Doctoral students: 125	
Total number of academics: 703	
Full-time faculty staff: 614	
Part-time lecturers/professors: 89	
Full-time faculty staff with doctorate degree: 219	
Full-time faculty staff bearing titles of Professor or Assoc. Professor: 69	
Total number of education programs: 51	
Undergraduate programs: 19	
Master's programs: 19	
Doctoral programs: 13	

Data period 2015 – 2019

GENERAL ANALYSIS

ABOUT UPM

WHAT

- UPM is the rating system, the development of which was funded by the Vietnam Ministry of Education and Training, to assess the responsiveness of universities in the 4th Industrial Revolution (4IR) era.

- UPM is a suitable rating tool for universities in the region who aim to benchmark with the Asian top 100 universities. It evaluates university performance through 54 indicators across 8 categories, following two distinctive orientations: research and application. Evaluation results will be presented in the form of an overall score for the whole institution, and a score for each category, corresponding to a number of Stars ranging from 1 – 5.

- RANKING CORE

6. IT Infrastructure
7. Internationalization
8. Community Services

- 4.0 METRICS

1. Entrepreneurship
2. Innovation
3. Digital Transformation
4. Student Mobility
5. Ethical value

- UPM 5 stars universities have high national reputation and are internationally well recognized; UPM 4 stars universities are well-known not only in the country but also in the region; UPM 3 stars universities have their roles in the national higher education (HE) system and can facilitate student mobility in ASEAN countries.

WHY

- Traditional university ranking, rating systems just focus on traditional academic and human resource performance, in particular, on world/region top HE institutions.

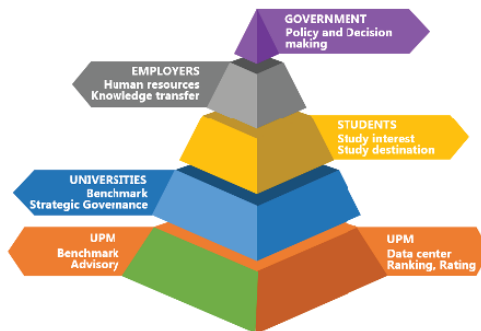

- In the era of 4IR, the world is changing rapidly with high uncertainty, broad connectivity and unlimited potentials.

- Universities have new roles and responsibilities:

- + Employees → Employees and Entrepreneurs
- + Knowledge Creation and Transfer → Knowledge Creation and Exploitation
- + Academic Institution → Real World (Inside-out – Outside-in).

- Benchmarking and assessing the quality of a university should be performed in a holistic and innovative way. UPM can satisfy that requirement as it reasonably integrates the main features of education accreditation with those of university ranking and rating, while especially focusing on the 5 core characteristics of higher education 4.0: Entrepreneurship, Innovation, Digital Transformation, Student Mobility and Ethical Values.

WHO

- As a data and analysis center, **UPM** facilitates benchmarking and provides consultancy for the national HE system, as well as HE institutions and programmes in the region.

BENEFICIARIES:

- **HE institutions** can use UPM criteria to benchmark themselves or as a tool for strategic governance and partner development.

- **Students** can be informed by UPM benchmarking results to pursue their study interests and choose their study destinations.

- **Employers** can recruit qualified human resources and make use of S&T achievements indicated by UPM benchmarking results. They can also use benchmarking results for evidence-based branding.

- **The government** can use UPM benchmarking results as the basis for policy and decision making.

HOW

- Visit the site <https://upm.vn> for full introduction and methodology; download the UPM dataset template. Fill in the dataset and submit the self-reported data for the institution as a whole to UPM at upm@vnu.edu.vn.

- UPM team and their advisory committee will review and approve the data, then decide the score. A fact file is available for participant universities before official launching. All data are secured by the institution as well as UPM.

- After assessing and awarding the stars, UPM can publish the institution's profile and the results of the overall star and the score for each category on its website.

- The detailed results of all indicators can also be publicized by the institution. The institutions can provide third parties with all the data released from a UPM dataset either in printed or digital forms.
